

OKLAHOMA MEDICAL MARIJUANA AUTHORITY

PROOF OF LOCATION USING GPS COORDINATES

FOR COMMERCIAL ENTITIES

NOTE: It is the applicant's responsibility to read and follow the guidelines for proper proof of location. Medical marijuana applications not meeting the requirements may be rejected and extend the application process until all correct information is submitted.

REQUIREMENTS

Commercial entity applicants will be asked to provide Global Positioning System (GPS) Coordinates of their location. The purpose of providing the coordinates is to provide a consistent way of documenting the location of licensed medical marijuana sites.

For general assistance, contact OMMA at omma@ok.gov

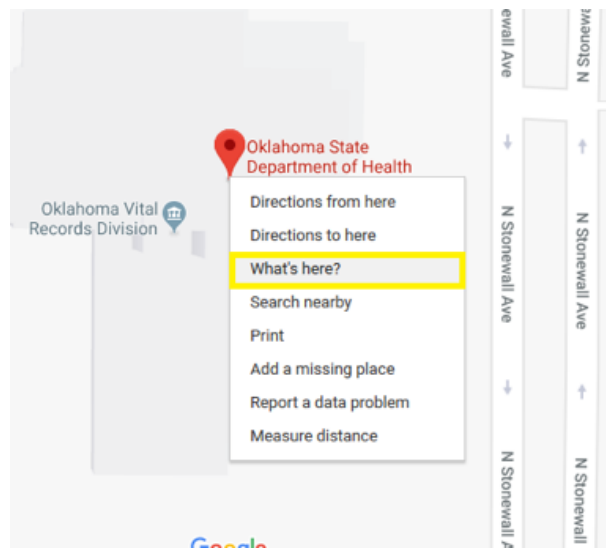

Disclaimer: This tool is for reference purposes. The OMMA does not endorse any GPS or web-based location functions. Nor does it assume any liability for any harms that may arise from their usage.

INSTRUCTIONS FOR FINDING GPS COORDINATES BY ADDRESS

Online map websites, such as [Google Maps](#) or [Bing Maps](#) can help locate GPS coordinates.

Google Maps

1. Go to the following website on your computer: <http://www.google.com/maps>
2. Type in the best address for the site, using the street number, city, zip code and state. If there is not a specific address, enter the closest intersection or landmark for a nearby location. Using the mouse, zoom in and click on the closest location.
3. Place the mouse over the location and right-click. Select **"What's Here?"** from the list of options:

For additional help with Google Maps, visit the following site: [Find or Enter Latitude or Longitude](#)

4. Scroll to the bottom of the screen and view the coordinates listed on the card. There should be two numbers with a comma in between.

1st Number = Latitude Coordinate. 2nd Number = Longitude Coordinate.
